Instructions:

1. Trace all shapes on the paper side of fusible and cut out roughly 1/8" outside of traced line. Join the top & bottom of the heart as you trace.
2. Fuse shapes to corresponding wools.
3. Cut wool shapes out on traced lines. Set the blue scalloped heart aside for now.
4. Center the wool shapes on the cotton background, fuse.
5. Using corresponding colored threads, whip stitch all shapes in place with the exception of the blue section of the wings.
6. Pencil or chalk the feather lines on the red wool wings.
7. Using 6 strands of **ecru**, stitch elongated blanket stitches close together to make the white stripes on the wings.
8. Using 2 strands of **839**, chain stitch around the white banner.
9. Stem stitch around the head, beak, tail feathers & wings with **839**. Use a fairly small stitch to keep a smooth line on the curved areas.
10. Using 2 strands of **3371**, chain stitch around the body of the eagle and to accent the leg lines.
11. Use 1 strand of **3371** to stem stitch the eye, adding a French knot in the center.
12. Using 2 strands of **841**, satin stitch the talons, holding the banner.
13. With **2226** blanket stitch the blue field of the wing. To make the scalloped edge where the blue meets the red/white wing area, add multiple (5-6) blanket stitches on the thread that travels between the stitches. See close up photo.

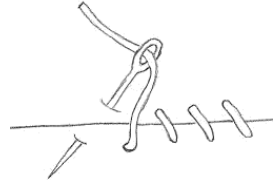

14. Back stitch the dates on the banner with **2226**. *I like to use Sulky Tear Away to trace the dates and stitch through the product, then tear away.
15. Stitch stars on the blue wing with 2 strands of **3829**.
16. Fuse paper backed fusible onto the back of the cotton once all stitching is completed.
17. Trace the heart to make a template out of paper. Pin to the front of the cotton. Cut out the heart.
18. Center and fuse to the scalloped blue heart.
19. With **3829** blanket stitch the heart to the blue scalloped heart.
20. Fuse to the cotton backing and trim to follow the blue scalloped wool. Use **2226** to blanket stitch the outer edge.
21. Add a twisted hanger loop at the top center of the project.
22. ENJOY!
